Ta-Nefer Ankh

If your idea of community is living with African-Centered families sharing the Kemetic-Centered philosophy and lifestyle, where everyone is committed to the welfare and empowerment of each other... Working collectively to generate self-reliance, community control and independence...

Then your idea of community is **Ta-Nefer Ankh!**

Ta-Nefer Ankh - meaning *world / place of beautiful life* - is our vision of society/community founded on the ideal of 'optimal life' for everyone and everything; where abundance and prosperity, joy, health and reverence for life are the standard. Under the **KemetWay** philosophy our communities practice the principles of working together doing good work.

Ta-Nefer Ankh Community endeavors to establish self-reliance, and independence – including the institutions and resources we need for our survival and development. We are creating food sovereignty, independent schools, cooperative land and housing ownership, cooperative business ownership. Our healthy lifestyles programs are designed to generate health and well-being for everyone within our communities. We are making this happen by way of our united communities working together.

TaNefer Ankh Community is global in scope and local in practice. We are uniting African-centered communities globally (Pan-Africanism); and with other life-centered communities (Eco-Global). We are empowering our local communities wherever they are with world support and power.

When you join a **Ta-Nefer Ankh Community** and practice **KemetWay** you are joining a national community and family committed to your health and well-being. Also, by embracing **Ta-Nefer Ankh** and **KemetWay**, you are connecting to the Neteru, the Ancestors, and the African Way of Life.

If you are a person of African descent, in good moral standing, committed to and believe in working together for the good of all, then you are welcome to join the **Ta-Nefer Ankh Community** - To do so meet with the local Seba (Leader) in your area, or contact our national offices for information and instructions.

KemetWay

KemetWay / TaNeteru — the Contemporary philosophy and practice of the Kemetic Way Of Life

Our Aku (Ancestors) from the earliest times practiced **TaNeteru** – the path of the Sacred Society governed by the Ntru (life forces); also called the 'Way of Life' (Ankh Rwat). Our Aku of ancient Kemet provide us with the clearest understanding of **TaNeteru**; and it is from them that we take our guidance in calling our philosophy and practice **KemetWay** – the contemporary philosophy and practice of the ancient Kemetic Way of Life; and **TaNeteru**.

TaNeteru (KemetWay) then, as now, is designed to create and maintain 'optimal-life' for everyone and everything. It means working collectively to create and practice life-centered relationships throughout creation. It means working collectively to generate and share abundance and prosperity with and for everyone.

TaNeteru was practiced thousands and thousands of years by Africa's oldest civilization and societies – including Twa / Khoi-San; Africa's 2nd oldest Civilization – Nubia; and its 3rd oldest – Kemet; and by our Ancestors around the ancient world – including Asia Minor, India, Asia, and Mesoamerica.

KemetWay / TaNeteru is the society governed by, and living in harmony with, the life-forces (Ntru); communally sharing their gifts (resources) to sustain and improve our quality of life. Pooling resources, knowledge, skills and talents to create and sustain 'optimal-life' - including good health, prosperous life-style, life-centered technology; and communal government and leadership.

KemetWay / TaNeteru guides us away from profaning, devaluing and debilitating life; arming us against barbarism and backwardness - including racism, conquest pathology, sexual perversion, environmental disrespect and destruction. It heals us from trauma due to racism, slavery, and colonialism.

KemetWay / TaNeteru promotes Pan-Africanism and Eco-Globalism.
